📍 Pakistan

PROFESSIONAL SUMMARY

BS Information Technology student with hands-on experience in modern web development and a strong interest in full-stack software engineering. Currently developing **CareerSyncAI**, a full-stack career management application using Next.js, PostgreSQL, Prisma, Zod, and authentication. Familiar with frontend development, databases, version control, and software development fundamentals. Actively strengthening problem-solving skills through C++ and Data Structures & Algorithms.

EDUCATION

Bachelor of Science in Information Technology (BS-IT)
Government Graduate College
Currently in 5th Semester

TECHNICAL SKILLS

Frontend Development

- HTML5, CSS3, JavaScript
- React.js, Next.js
- Tailwind CSS

Backend & Full-Stack Technologies

- Node.js
- Prisma ORM
- Zod
- Authentication

Databases

- PostgreSQL

- MySQL
- MongoDB

Programming & Computer Science

- C++
- Object-Oriented Programming (OOP)
- Data Structures & Algorithms (Currently Learning)

Tools & Version Control

- Git
- GitHub

PROJECTS

CareerSyncAI — Full-Stack Web Application

Status: In Development

Technologies: Next.js, React, PostgreSQL, Prisma, Zod, Tailwind CSS, Authentication, Git, GitHub

Developing a modern career management application using a full-stack architecture.

Key Responsibilities & Features

- Building the application using Next.js and React.
- Designing and managing relational data with PostgreSQL and Prisma.
- Implementing input validation using Zod.
- Working on authentication and user management.
- Developing structured application actions for user and job data.
- Creating user interfaces with Tailwind CSS.
- Managing source code and version control using Git and GitHub.
- Planning AI integration for future application features.

CORE COMPETENCIES

- Full-Stack Web Development

- Responsive User Interface Development
- Database Design & Management
- Software Development Fundamentals
- Object-Oriented Programming
- Problem Solving
- Version Control
- Continuous Learning
